

# Contents

## Preface — IX

## Chapter 1

### Introduction — 1

- Uncertainty about the Future — 1
- VUCA — 3
- Prediction — 7
- Forecasting — 9
- Types of Forecasts — 13
- Forecast Failures — 16
- ‘Superforecasters’ — 19
- Utopias and Dystopias — 21
- Trends and Trend Cycles — 22
- Trend Forecasting and Trend Reports — 26
- Conclusions — 29
- Book Structure — 29
- References — 30

## Chapter 2

### Scenario Planning Origins & Evolution — 33

- Introduction — 33
- The Origins of Scenarios — 34
- Foundations of The USA Scenario Centre — 34
- The Intuitive Logics School — 37
- The Probabilistic Modified Trends School — 39
- New Techniques — 42
- Backcasting — 42
- Field Anomaly Relaxation — 45
- Morphological Analysis — 46
- Roadmapping — 47
- The Delphi Technique — 47
- Foundations of ‘The French Scenario Centre’ — 50
- The La Prospective School — 51
- The Growth of Scenarios — 53
- Discussion — 58
- Conclusions — 61
- References — 64

## **Chapter 3**

### **Scenario Development Process: Stage 1 — 68**

- Introduction — **68**
- Stage 1: Project Orientation — **69**
- Conclusions — **87**
- References — **88**

## **Chapter 4**

### **Scenario Development Process Stage 2 — 89**

- Workshop 2: Environmental Exploration — **89**
- Understanding History — **90**
- Environmental Change — **91**
- Driving Forces — **93**
- Clustering Driving Forces — **94**
- Predictability/Impact Matrix — **96**
- Research — **101**
- Iceberg Analysis — **103**
- Causal Layered Analysis — **105**
- Conclusions — **107**
- References — **109**

## **Chapter 5**

### **Scenario Development Process Stage 3 — 110**

- Introduction — **110**
- The Scenario Framework — **110**
- The Number of Scenarios — **113**
- Scenario Diagrams — **116**
- Scenario Plots and Narratives — **120**
- Storytelling — **122**
- Deductive Versus Inductive Story Development — **126**
- Storyline Plot Diagrams — **131**
- Normative Scenarios — **132**
- Conclusions — **133**
- References — **135**

## **Chapter 6**

### **Scenario Development Process: Stage 4 & 5 — 137**

- Stakeholder Analysis — **137**
- Horizon Scanning — **139**
- Early Warning Signals — **144**
- Complexity — **147**
- Big Data — **148**

|  |     |
|--|-----|
| Correlation Versus Causation —         | 150 |
| Unintended Consequences —              | 152 |
| Signals Versus Noise and the Media —   | 154 |
| Predictable Surprises —                | 156 |
| The ‘Black Elephant’ —                 | 157 |
| Fundamental Disruptive Forces —        | 157 |
| Tipping Points and Inflection Points — | 159 |
| Risk and Uncertainty —                 | 160 |
| Conclusions —                          | 161 |
| References —                           | 163 |

## Chapter 7

### How People Think — 166

|   |     |
|---|-----|
| Introduction —  | 166 |
| Heuristics and Biases —                                       | 166 |
| The Representativeness Heuristic —                            | 167 |
| The Availability Heuristic —                                  | 168 |
| Anchoring and Adjustment —                                    | 168 |
| Base Rate Fallacy —   | 169 |
| Sample Size Bias —  | 169 |
| Misconceptions of Random Events —                             | 170 |
| The Misconception of Regression and the Conjunction Fallacy — | 170 |
| Biases Due to Retrievability of Instances —                   | 171 |
| Biases Due to Imaginability —                                 | 172 |
| The Experience/Framing Bias —                                 | 174 |
| Reliance on Concrete Examples —                               | 175 |
| Overconfidence and the Illusion of Control —                  | 175 |
| Single Outcome Calculation Bias —                             | 176 |
| Belief Perseverance and Confirmation Bias —                   | 176 |
| Hindsight Bias —  | 177 |
| Summary: Heuristics and Biases —                              | 177 |
| Organisation and Activation of Knowledge —                    | 179 |
| Script Theory —   | 180 |
| Causal Versus Diagnostic Reasoning and Inferences —           | 180 |
| Reasoning by Analogy —  | 182 |
| Rationality —   | 183 |
| Imagination and Expectation —                                 | 183 |
| Groupthink and Decision Fatigue —                             | 184 |
| Punctuated Equilibrium and Coagulation —                      | 185 |
| Implications for Scenarios —                                  | 186 |
| Scenario Content and Presentation —                           | 188 |
| Behavioural Implications of Scenarios —                       | 189 |

Implications for Scenario Facilitators — **190**

Conclusions — **190**

References — **192**

## **Chapter 8**

### **Issues in Scenario Planning — 199**

Introduction — **199**

Scenario Typologies — **199**

Classification of Futures Methods — **200**

Scenario Definitions — **202**

Scenario Development Methods — **205**

Probability and Plausibility — **208**

Conflicting Terms in Scenario Development — **213**

The Scenario Matrix — **213**

Scenario Project Facilitation — **215**

Implications for Scenario Facilitators — **217**

Process and Content Pitfalls — **219**

Challenges — **221**

Conclusions — **222**

References — **225**

**Appendix A: Foresight and Futurist Organisations — 231**

**Appendix B: Futures Journals, Magazines and Networks — 237**

**Appendix C: Foresight Glossary — 243**

**Appendix D: Some Useful Guides and Tools — 247**

**Appendix E: Select Readings — 249**

**Appendix F: Examples of a Range of Published Scenarios — 253**

**Appendix G: Common Heuristics and Cognitive Biases — 257**

**List of Figures — 259**

**List of Boxes — 261**

**Index — 263**
